FARM EXPORTS TO HIT \$10 BILLION IN CURRENT FISCAL YEAR

Approved by the Outlook and Situation Board

For immediate release

WASHINGTON, November 2--The Nation's agricultural exports in the current fiscal year ending next June 30 are expected to total about \$10 billion, almost \$2 billion above the previous record high of \$8.1 billion last fiscal year.

Agriculture's contribution to the U.S. trade balance will also be at an alltime high, \$3.5 billion compared with \$2.0 billion last year. This contribution helps offset the unfavorable nonfarm trade balance, which was \$7.1 billion in 1971/72.

Two-thirds of this year's increase in farm exports will be due to increased volume (primarily of grains, soybeans, and cotton) and one-third to higher prices. The increased volumes of grain and soybeans, in particular, will mean substantially increased demands by country elevators for rail cars, by interior elevators for rail cars and barges, and by port elevators for ships. The successful movement of 83 million metric tons into export will require coordinated movement and avoidance of bottlenecks.

The sharp increase forecast in exports primarily reflects record shipments of grains and soybeans in prospect. While exports of these commodities to most destinations will be up over last year, the large purchases by the Soviet Union is the single most important element.

-more-

The value of wheat exports is forecast to increase about 90 percent to over \$2 billion, feed grains by 38 percent to \$1.6 billion, and soybeans and products by 13 percent to about \$2.3 billion. In addition, higher prices are expected to boost livestock product exports by 32 percent to almost \$1 billion. Slight increases are forecast for fruits and vegetables.

Declines in value are forecast only for dairy and poultry products, down 30 percent, and cotton, down 6 percent. However, the volume of cotton exports will be up 5 percent, to 3.5 million bales.

Farm exports this fiscal year are expected to be \$3.5 billion larger than agricultural imports. This favorable agricultural trade balance would exceed by \$1.2 billion the previous high recorded in 1966/67. Noncommercial exports this fiscal year are estimated at \$1 billion, leaving a record commercial trade surplus of \$2.5 billion.

The Soviet Union accounts for about half of the total increase forecast for U.S. agricultural exports this fiscal year. These USSR purchases are now estimated at \$1.2 billion, compared with about \$150 million last year. Most of this increase will be in wheat, which may total around \$660 million. Feed grain exports may total close to \$400 million, and soybeans \$135 million.

Exports to Western Europe are expected to total about \$3.2 billion, slightly more than a year earlier. Soybeans and soybean products will account for most of that increase, but grains should also gain along with fruits, vegetables, and animal products.

Japan, the top single-country market for U.S. farm products, will probably take a record \$1.5 billion worth this year, with major gains in wheat, feed grains, fresh fruits, cattle hides, cotton, and tobacco. Exports to other Asian countries, including the Near East, are expected to show a substantial gain and total over \$2.0 billion. Most of this increase will be in feed grains and wheat. Recent sales of linseed oil, wheat, and corn may bring exports to the People's Republic of China to about \$50 million.

U.S. agricultural exports to Latin America should advance to around \$850 million from approximately \$762 million last fiscal year, with much of the increase being in wheat and feed grains. Exports to Canada will approach \$700 million, compared with \$661 million last year, with increases concentrated in corn, fresh fruits and vegetables, and cotton. Exports to Africa are expected to total around \$350 million compared with \$322 million a year earlier.

The rise in U.S. farm exports this fiscal year will be the fourth consecutive annual increase -- from a level of \$5.7 billion in 1968/69. Commercial sales for dollars will have almost doubled from \$4.7 billion during that period.

The continued expansion in U.S. agricultural exports this year has been aided by a number of factors: (1) The world grain supply situation. (2) Failure of the USSR wheat crop. (3) A continuing rapid improvement in economic conditions around the world. (4) The liberalization of trade with USSR and People's Republic of China. (5) The realignment of currencies resulting from the Smithsonian Agreement last January. (6) Available U.S. supplies and the capacity to move large quantities of grain.

U.S. agricultural trade balance

Item	1968/69	1969/70	1970/71	1971/72	1972/73 Forecast

SPECIAL NOTICE

This publication is a statistical reference for agricultural exports and imports of the most recent 2 years. In addition, historical series are presented for the major commodities and commodity groups. Data are selected when either current or previous year meets percentage criteria. Items in some tables may not add to totals because of rounding.

U.S. foreign agricultural trade statistics in this report are official U.S. data based on compilations of the Bureau of the Census. Agricultural commodities consist of (1) nonmarine food products and (2) other products of agriculture which have not passed through complex processes of manufacture, such as raw hides and skins, fats and oils, and wine. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and in-transit through the United States from one foreign country to another when documented as such through U.S. Customs.

Exports

The export statistics also exclude shipments to the U.S. armed forces and diplomatic missions abroad for their own use and supplies for vessels and planes engaged in foreign trade. Data on shipments valued at less than \$251 are not compiled by commodity and are excluded from agricultural statistics, but are reflected in nonagricultural and overall export totals in this report. The agricultural export statistics include shipments under P.L. 83-480 (Agricultural Trade Development and Assistance Act), and related laws; under P.L. 87-195 (Act for International Development); and involving Government payments to exporters. (USDA payments are excluded from the export value). Separate statistics on Government program exports are compiled by USDA from data obtained from operating agencies.

The export value, the value at the port of exportation, is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port. The country of destination is the country of ultimate destination or where the commodities are to be consumed, further processed, or manufactured. When the shipper does not know the ultimate destination, the shipments are credited to the last country, as known to him at the time of shipment from the United States, to which the commodities are to be shipped in their present form. Except for Canada, export shipments valued at \$251-\$499 are included on the basis of sampling estimates; shipments to Canada valued at \$251-\$1,999 are sampled.

"Agricultural exports under specified Government programs" (table 7) include exports under programs authorized by Public Law 480, as amended. "Agricultural exports outside specified Government programs" (sales for dollars) include, in addition to unassisted commercial transactions, shipments of some commodities with governmental assistance in the form of (1) barter transactions involving overseas procurement for U.S. agencies, which benefit the U.S. balance of payments and rely primarily on authority other than P.L. 480; (2) extension of credit and credit guarantees for relatively short periods; (3) sales of Government-owned commodities at less than domestic market prices; and (4) export payments in cash.

Apparent excesses of exports under specified Government programs over total exports, which result in negative values in the column "Agricultural exports outside specified Government programs," may be due to lags in reporting, differences in valuation procedures, or the recording of the export as destined for the country through which transshipment was made.

Donations through the United Nations Relief and Works Agency (UNRWA) for the relief of Palestine refugees are not reported by country of destination. They are shown in the item "Country of destination not reported" in the column "Agricultural exports under specified Government programs."

For certain commodities, referred to as Special Category commodities, security restrictions prevent the release of country of destination information.

Because of transshipments, the value of U.S. exports by country (tables 6 and 7) is overstated to Canada, the Netherlands, and Belgium and understated to West Germany, France, the United Kingdom, Switzerland, Ireland, Italy, Denmark, Sweden, Norway, Spain, Portugal, Japan, and other countries.

Transshipments (tables 25, 26, and 27) show movements of U.S. agricultural products through Canada, the Netherlands, and Belgium by commodity. In many cases, shipments are overstated to the three principal transit countries because final destination is not known at the time of export. Transit statistics from the three countries indicate final destinations by commodity. Tonnage and value should be deducted from exports to the three countries listed in tables 8 through 12, and added to the countries designated.

Commodity-by-country data (table 8) are printed at the 7-digit Schedule B commodity code level. Statistics on commodities valued under \$1 million are not shown, but are available for reference from Agricultural Specialist machine tabulations in the Statistics Branch, Foreign Demand and Competition Division, Economic Research Service, U.S. Department of Agriculture. So-called "basket" classifications were excluded because they consist of diverse items and do not provide for analytical clarity. Commodity codes listed under country data include the 1970 old Schedule B codes which became obsolete, effective January 1971 and the new Schedule B codes which replace them. Countries listed under commodity headings were based on a percent of commodity export values as follows: (1) Commodities having an export value from \$1 million to \$20 million show countries accounting for 2 percent or more; (2) commodities with export values from \$20 to \$50 million show countries accounting for 1 percent or more; and (3) commodities valued over \$50 million show countries for 0.3 percent or more. The value of commodities from selected countries was subtracted from each commodity total to derive "other countries."

Country-by-commodity data (table 9) cover countries having agricultural export trade totals of \$1 million or more. The value of commodities exported to each country was summed and listed for the country at a 5-digit Schedule B level if the commodity total was 0.5 percent or more of the agricultural exports to that country, with the following exceptions: Commodities to Canada, United Kingdom, the Netherlands, France, West Germany, and Japan were listed if they accounted for 0.1 percent or more, and commodities exported to Mexico, Belgium and Luxembourg, Italy, and the Philippines were listed if they accounted for 0.2 percent or more. The 5-digit Schedule B codes as reported by the Bureau of the Census may include both agricultural and nonagricultural products. The 5-digit codes designated by an asterisk (*) in this report exclude the nonagricultural commodities. Value of selected commodities was subtracted from each country total to derive the "other agricultural products."

In commodity group-by-country data (table 11), 7-digit Schedule B commodity codes were summed to group totals. Each of the countries listed under each group accounted for 0.3 percent or more of the commodity group's export value with the following exceptions: Wheat, rice, feed grains, grains and preparations, corn, wheat and wheat products, grain sorghums, wheat and wheat flour, feed grains and products, and nonfat dry milk were listed if they accounted for 0.1 percent or more. Commodity groups designated by a double asterisk (**) in this report include furskins undressed, beginning January 1, 1970.

Imports

Imports for consumption are a combination of entries for immediate consumption and withdrawals from warehouses for consumption. Data on shipments valued at less than \$251 are estimated on the basis of a 1-percent sample and are not compiled by commodity. They are excluded from agricultural statistics but are reflected in nonagricultural and overall import totals in this report.

The import value, defined generally as the market value in the foreign country, excludes import duties, ocean freight, and marine insurance. The country of origin is defined as the country where the commodities were grown or processed. When the country of origin is not known, the imports are credited to the country of shipment.

Imports similar to agricultural commodities produced commercially in the United States and others that are interchangeable in use to any significant extent with such U.S. commodities are supplementary or partly competitive. All other commodities are complementary or noncompetitive.

Further explanatory material on foreign trade statistics and compilation procedures of the Bureau of the Census is contained in the publications of that agency.

Commodity-by-country data (table 20) are printed at the 7-digit Schedule A commodity code level. The 7-digit Schedule A codes as reported by the U.S. Bureau of the Census may include both agricultural and nonagricultural products. The 7-digit codes designated by an asterisk (*) in this report exclude the nonagricultural commodities. Basket classifications were excluded. Statistics on commodities valued at less than \$1 million are available but not published. Countries that were listed under each commodity were based on a percent of the import value of the commodity as indicated: (1) Commodity with import value from \$1 million to \$20 million listed countries that accounted for 2 percent or more, (2) from \$20 million to \$50 million listed countries that accounted for 1 percent or more, and (3) \$50 million or over listed countries that accounted for 0.3 percent or more. The value of commodities from selected countries was subtracted from each commodity total to derive "other countries."

Country-by-commodity data (table 21) cover countries having agricultural import trade totals of \$1 million or more. The value of commodities imported from each country was summed and listed for the country of origin at a 5-digit Schedule A level if the commodity total was 0.3 percent or more of the agricultural imports from that country, with the following exceptions: Commodities from Canada, Mexico, Brazil, Argentina, and Australia are listed if they account for 0.1 percent or more. The 5-digit Schedule A codes as reported by the Bureau of the Census may include both agricultural and non-agricultural commodities. The 5-digit codes designated by an asterisk (*) in this report exclude the nonagricultural commodities. Value of selected commodities was subtracted from each country total to derive the "other agricultural products."

In commodity group-by-country data (table 23), 7-digit TSUSA commodity codes were summed to group totals. Each of the countries listed under each group accounted for 0.3 percent or more of the commodity group's import value with the following exceptions: Bananas and plantains, green coffee, cocoa beans, crude rubber, pork, and raw sugar were listed if they accounted for 0.1 percent or more. Commodity groups designated by a double asterisk (**) in this report include furskins undressed, beginning January 1, 1970.

XX Changes in country classifications

Beginning Jan. 1, 1971

British Pacific Islands
Other Pacific Islands

Spanish Africa, n.e.c.
Equatorial Guinea

Mali, Niger, Chad, Upper Volta,
Dahomey, and Congo (Brazzaville)

Burundi
Rwanda

Malagasy Republic
French Indian Ocean Areas

Botswana
Swaziland
Lesotho

Formerly

British Western Pacific Islands

Spanish Africa, n.e.c. and Equatorial Guinea

Western Africa, n.e.c.

Burundi and Rwanda

Malagasy Republic

Southern Africa, n.e.c.

Beginning Jan. 1, 1972

Qatar, United Arab Emirates,
Yemen Arab Republic, and Oman

Western Samoa

Beginning May 1, 1972

Bangladesh

Formerly

Arabia Peninsula States, n.e.c.

Reported with New Zealand

Formerly

Reported with Pakistan

XX Changes in country classifications

Beginning Jan. 1, 1971

British Pacific Islands
Other Pacific Islands

Spanish Africa, n.e.c.
Equatorial Guinea

Mali, Niger, Chad, Upper Volta,
Dahomey, and Congo (Brazzaville)

Burundi
Rwanda

Malagasy Republic
French Indian Ocean Areas

Botswana
Swaziland
Lesotho

Formerly

British Western Pacific Islands

Spanish Africa, n.e.c. and Equatorial Guinea

Western Africa, n.e.c.

Burundi and Rwanda

Malagasy Republic

Southern Africa, n.e.c.

Beginning Jan. 1, 1972

Qatar, United Arab Emirates,
Yemen Arab Republic, and Oman

Western Samoa

Formerly

Arabia Peninsula States, n.e.c.

Reported with New Zealand

Beginning May 1, 1972

Bangladesh

Formerly

Reported with Pakistan

1/ Fiscal year Government program data will be released in a future issue of the monthly publication of Foreign Agricultural Trade of the United States.

XX Changes in country classifications

Beginning Jan. 1, 1971

British Pacific Islands
Other Pacific Islands

Spanish Africa, n.e.c.
Equatorial Guinea

Mali, Niger, Chad, Upper Volta,
Dahomey, and Congo (Brazzaville)

Burundi
Rwanda

Malagasy Republic
French Indian Ocean Areas

Botswana
Swaziland
Lesotho

Formerly

British Western Pacific Islands

Spanish Africa, n.e.c. and Equatorial Guinea

Western Africa, n.e.c.

Burundi and Rwanda

Malagasy Republic

Southern Africa, n.e.c.

Beginning Jan. 1, 1972

Qatar, United Arab Emirates,
Yemen Arab Republic, and Oman

Western Samoa

Beginning May 1, 1972

Bangladesh

Formerly

Arabia Peninsula States, n.e.c.

Reported with New Zealand

Reported with Pakistan
